

# Quality, Environmental and Health & Safety Policy Statement

It is the policy of Sensonics Ltd to supply a range of products and services to its customers that will be safe, effective and reliable through life in the expected environment. Our market and customer focus is the supply of high integrity equipment and services for machine monitoring, seismic monitoring and structural protection, including the supply of acceleration, velocity and displacement transducers, this focus is reflected in the Quality, Environmental and Health & Safety objectives of Sensonics.

To achieve these Quality, Environmental and Health & Safety objectives, Sensonics management team is committed to:

- a) Be compliant to: ISO9001, ISO14001 and ISO45001 standards  
BE EN ISO/IEC 80079-34 ATEX standard  
EU directives where applicable  
Health & Safety regulations  
ASME (Kepeco)  
Awareness of Counterfeit Fraudulent, Suspect Items (CFSI)  
Awareness of Nuclear Safety  
Other applicable statutory and regulatory requirements
- b) Continual improvement of the Integrated Management System (IMS) by ensuring risks and opportunities that affect conformity of products and services are determined so as to enhance customer satisfaction
- c) Take accountability for the effectiveness of the IMS
- d) Ensure the quality policy and objectives are established for the IMS and compatible with the context and strategic direction of the company.
- e) Promote the use of process and risk based thinking
- f) Ensure that appropriate resources are available including, training, support, working environment and guidance
- g) Communicate the importance of the effectiveness of the IMS and conforming to the requirements
- h) Take the requirements of external providers and interested parties to provide an improved service
- i) Ensuring the responsible use of natural resources and the minimisation of waste generation & energy consumption
- j) Ensure that all employees are trained in environmental and health & safety practices such that the community nor the environment are exposed to harm from Sensonics operations

At all times, through my designated representatives, I will ensure the implementation of the Quality, Environmental and Health & Safety Policy Statement is available to any interested parties on request.
